## **RKL eSolutions Recognized as Sage Business Partner of the Year**

*The company earns top honor for year over year new license revenue growth*

**LANCASTER, PA – October 28, 2015** – [RKL eSolutions](#), a business software provider headquartered in Pennsylvania and with locations across the U.S., was proudly awarded ‘Business Partner of the Year’ for top new license growth by Sage North America.

The award recognizes outstanding performance in achieving the highest total year over year new license revenue growth [across all products](#) within Sage North America for the fiscal year ended September 30, 2015. As a top performer, RKL eSolutions joins a very select and elite class of President’s Circle award winners among the thousands of authorized resellers within the Sage Channel.

RKL president Joe Noll says recognition as ‘Business Partner of the Year’ is an accomplishment shared among the entire team. It’s especially rewarding based on recent acquisitions and other growth initiatives the company has been executing over the last couple of years.

“We’ve all been working very hard to expand our team and grow at a measured pace. Our goal is to sustain a successful national practice while maintaining the same level of localized and personal customer service that our clients have come to expect regardless of how big we get,” says Joe.

“This award from Sage helps to validate that we’re hitting the right benchmarks, while feedback from our customers tells me we’re doing it the right way. I’m very proud of the team.”
