

# FloQast Close Management Software

Created by accountants for accountants to close faster and more accurately

Closing the books is manual, disorganized and prone to costly errors. FloQast's closing software helps your team collaborate, connect and close the books faster.

- ✓ Centralize your close process
- ✓ Automate trial balance tie-outs
- ✓ Simplify the review process
- ✓ Gain transparency into close status

## WORKFLOW

**Checklist:** Transform your Excel checklist into a collaborative tool for the whole team. Stay on track with alerts, and gain transparency into real-time close status.

**Review Notes:** Attach review notes to checklist items or reconciliations, and assign them to team members. Export everything to reduce back and forth with auditors.

## ACCURACY

**Reconciliations:** FloQast mirrors your existing folder structure, pulling ending balances directly from your Excel workbooks so you can review all account reconciliations from one screen.

**Trial Balance:** FloQast integrates with your existing ERP and supporting schedules to automate the Trial Balance tie-out process.
