

Senior Living with Sage Intacct ➤

Making sure your data is both up-to-date and compliant can become exhausting and costly, especially if you're working with an outdated system and complex spreadsheets. Keep your practices modern and compliant by implementing advanced business management software from Sage Intacct.

FULL BUSINESS MANAGEMENT

Sage Intacct senior care accounting software enables you to automate for greater efficiency, and provides the visibility you need to make operational improvements.

"TAKES THE PAIN AWAY"

Sage Intacct generates easy-to-understand reports for the field, operations, or joint ventures and requires minimal training, so non-financial users pick it up fast.

DEVOTED ADVISORS

We go beyond software as trusted advisors with diverse expertise in your highly specialized industry. Our firm-wide team provides a wide array of services to senior living organizations nationwide.

A Look At OUR RESULTS ➤

STAY HIPPA COMPLIANT

Sage Intacct has been certified as HIPAA and HITECH compliant by Avertium, so you can trust that your data is safe.

REPORT WITH CONFIDENCE

With the ability to create summary reports at any time, your team can be sure to operate on the most recent and relevant data.

CENTRALIZE YOUR PAYABLES

Multi-location organizations can process payments from one, centralized system, eliminating the need for manual processes.

SEE THE BIG PICTURE

Sage Intacct healthcare financial management allows you to track your financials and operational metrics like available capacity and revenue per treatment.

AUTOMATE BUSINESS PROCESSES

Key finance and accounting processes like procure-to-pay and the monthly close can be automated to save time and improve accuracy.

A TEAM YOU CAN TRUST

Through the whole process the RKL eSolutions team has been amazing. They get what we do, and were able to help us think about the solutions that best fit our business and guide us through implementation.
