Sage ERP X3 Continues to Drive Growth at RKL eSolutions

The company expands on a talented team of two-way consultants that can support both Sage ERP X3 and Sage 500 ERP with addition of Russ Griffith.

LANCASTER, PA – FEBRUARY 04, 2014 – RKL eSolutions, a Sage ERP provider and Endorsed Development Partner, announced the addition of Russ Griffith to their stable of Sage ERP consultants. Griffith brings 20 years of experience and exceptional Sage 500 ERP product knowledge to the rapidly expanding technology consulting practice at RKL eSolutions. Equally important, he will also be preparing to service and support the company's [Sage ERP X3](#) clients.

A recent announcement regarding plans to sunset development of Sage 500 ERP has caused some uncertainty and concern in the Sage channel. Sensing opportunity rather than threat, RKL eSolutions' leadership has been actively building a talented team of recognized Sage ERP experts that are certified for both Sage 500 ERP and Sage ERP X3.

Joe Noll, President at RKL eSolutions, says that the Sage ERP customers they serve will benefit from the recent changes. "While we remain totally committed to the support of Sage 500 ERP for many years to come, we realize that a good portion of our customers will want to migrate to a more modern, growing ERP platform like Sage ERP X3. That's why we're focused on adding consultants to our team that have vast experience with both Sage 500 and Sage X3 in order to help those customers, who want to migrate sooner rather than later, with a smooth and seamless transition."

The addition of Russ Griffith this month follows closely on the heels of a development in November 2013 whereby RKL eSolutions [added over 100 new Sage 500 ERP customers and 5 consultants](#). Three of those consultants - Josh Gettman, Donna Gallardo, and Stuart Blumenthal - are dual-authorized and certified for both Sage 500 ERP and Sage ERP X3.

Noll points out the importance of continuity in creating a sense of comfort and security for Sage ERP customers. "We want our customers to know they don't have to make a change that they don't want to, or sooner than they're ready. Whether they stay with Sage 500 ERP or migrate to Sage ERP X3, we have the knowledge and depth of resources under one umbrella to keep them running smoothly."

About RKL eSolutions, LLC
