RKL eSolutions Named an Accredited Gold Solution Provider by Adaptive Insights

Accreditation reflects high-level technical expertise and validated, successful customer implementations for Adaptive Insights Business Planning Cloud

LANCASTER, Pa., (August 20, 2019) – RKL eSolutions LLC, a nationwide leader in ERP software and IT consulting, is pleased to announce it has achieved Accredited status as a Gold Solution Provider from software company Adaptive Insights, a Workday company.

An Adaptive Insights Solution Provider for more than five years, RKL eSolutions offers the Adaptive Insights Business Planning Cloud to customers globally. Becoming an Accredited Gold Solution Provider reflects RKL eSolutions' growing number of Adaptive Insights-certified professionals as well as customer satisfaction from successful implementations of the business planning software.

“At RKL eSolutions, we’re always focused on delivering top-notch service to our clients throughout the United States and the world,” said RKL eSolutions President Joe Noll. “This accreditation from Adaptive Insights reinforces that commitment and continues the strong partnership between our companies. Congratulations to the RKL eSolutions team on this industry achievement!”

As an Adaptive Insights Gold Solution Provider, RKL eSolutions has nearly 20 successful customer implementations.

“We congratulate RKL for achieving Accredited status,” said Mel Zeledon, vice president of worldwide channel and alliances, Adaptive Insights. “It’s a testament to their commitment to Adaptive Insights combined with their solution expertise and dedication to customer success. We’re proud that they’re part of the Adaptive Insights partner ecosystem, and look forward to our continued partnership.”

An award-winning Sage provider, RKL eSolutions delivers business software, technical support and networking solutions to its clients throughout the U.S. in a wide variety of industries. Learn more at rklesolutions.com.
